

# **2007 Mini Dino Day Camp for Pre-Elementary Students**

**Instructor:** Shawna Carroll, Professional Teacher, Director of Education CEU Prehistoric Museum

**Camp Director:** Shawna Carroll, Emery County Education Council

**Assistance Instructors:** CEU Educational Interns

**Course Information:** **Age Group:** Preschool to Kindergarten

Date: **June 11th** starting at 10:00 and ending at 12:00

Cost: \$6.00 per students (includes snack and educational materials)

Location: Castle Dale Elementary

## **Course Description:**

This day camp will be an exciting introduction into the world of dinosaurs. The camp will consist of 3 science stations and 1 creative design station. Each participant will learn about fossils and how they are formed, dig replica dinosaur bones in a mapped out dig site, dig for real sharks teeth, sort and construct their very own dinosaur, and design and take home a camp bandana.

## **Class size:**

The Mini Dino Day Camp has a participant limit of 48 students.

## **Registration:**

Registration forms can be printed out at: [www.emerycounty.com](http://www.emerycounty.com).

## **Sponsors:**

This summer education camp experience is being sponsored by the Emery County Education Council and the CEU Prehistoric Museum, and the Emery County Economic Development Council.

## **Workshop Objective:**

The Emery County Education Council is sponsoring several summer educational camps this year. These camps are open to all participants but specifically target students that show an aptitude for science, technology and the arts. The goal is to get students excited about the opportunities that are available in these fields and make learning fun. By offering a summer camp type atmosphere, educators can provide learning opportunities that are not typically available in the traditional classroom setting
